PHILADELPHIA, Sept. 2.—The sub-committee of the city councils tonight considered the report of the accommants who examined the affairs of ex-City Treasurer Bardsley. The report showed that Bardsley in the last two years retained \$3.150 from magistrates and constables appointed by him to collect delinquent taxes. These magistrates and constables appeared before the committee. They said that Bardsley had retained \$550 from the money coming to each of them. There had been no arrangement between then and Barisley. Bardsley had mulcsed then and the simply submitted rather than lose their offices. BARDSLEY'S BLACKMAIL.

Washington, Sept. 2.—The secretary of the treasury today issued the following circular in regard to the continuance of 4½ per cent bonds:

"Public notice is hereby given that the time within which bonds of the 4½ per cent bean will be received at the office of the secretary of the treasury for continuance with interest at the rate of 2 per cent per anum has been extended until further notice, and the circular of July 2, 1891, under which said bonds have heretofore been received for continuance is modified accordingly. Interest at 4½ per cent on all bonds of said loan will cease this day, in accordance with the terms of the circular of July 2, 1891, but bonds presented for continuance under this circular will bear interest at the rate of 2 per cent per annum from September 2, 1891."

Secretary Foster said this afternoon that the extension of the time for the continuance of the fact (developed through correspondence) that some of the holders, through absence or other causes, have been unable to present them for continuance within the time specified in the former circular.

THE WORLD'S FAIR.

Curcago, Sept. 2.—The National Colum-bian commission met in the city council chamber at moon. The first matter of business which came before it was the reading of a communication from the general secretary of the American Sabbath union, asking a hearing for a delegation from that body on the subject of closing the exposition on Sauday. On motion of Commissioner De Young, of California, it was valed to appoint a committee of these.

person can look over the proceedings and not be impressed with the work accomplished. The responses of foreign governments have been most satisfactory and presage the greatest exposition of its kind ever attempted. Twenty legislatures have made appropriations and thirty states and territories have made application for space. The expense of these cannot fail short of \$6,000,000. Congress, by meager appropriations, has tripled the work, but it is to be hoped that the next session will do better. From the estimates prepared it is evident that the expenses of the commission must be cut down if the appropriaof \$50,500 is to be sufficient. This question, pentlemen, you will be asked to seriously consider. The cost or bestowing awards has been estimated at \$700,000, and I am of the opinion that congress should I am of the opinion that congress should be asked for an appropriation to cover that amount."

In this connection a letter was received from President Baker, of the boa d of directors, asking the commission to define its position on the subject of an appeal to congress for a \$5,000,000 loan. The matter was made a special order for tomorrow. It is proposed to offer the receipts of the fair as security for the loan. THE LADY MANAGERS.

Chic ago, Sept. 2.—The national board of lady managers of the Columbian exposi-tion met here this morning, and proceeded to the election of a secretary as the first business of the session. It was supposed that there would be sensething of a strug-gle to replace Miss Physic Courins in that position, but, without opposition to speak of, Mrs Susan Gale Cooke, who has been occupying the place since Miss Couzins was delosed, was duly chosen.

Mrs. Palmer presented her report. She said in part: "When we adjourned a year ago, we were completely under the direction of the national commission; now we tion of the national commission; now we are practically an independent body. Then we did not know where the money for our work was to come from; now we have received appropriations. We have been given complete control of the woman's huilding and of those affairs which naturally come within the woman's department. Salaries have been voted to our officers—\$5,000 per annum have been proffered to the president and \$5,00 to the scorelary. THE TENNESSEE LEGISLATURE.

NASHVILLE, Sept. 2—There was a lively scene in the lower house of the general assembly today over the introduction of a resolution providing for the appointment of a committee to investigate the condition of the penitentiary and convict lease system and the recent Briceville troubles. Under a suspension of the rules the resolution was taken up and a hot running debate ensued, followed by the introduction of a flood of amendments. The objection was made that it was a scheme to delay action, because the committee could delay action, because the committee could not conclude its labors in the time allowed for the sitting of the assembly. Finally, the whole matter was referred to the positentiary committee. The tendency of most of the amendments was to prevent the resolution from committing the house to opposition to the abrogation of the pres-ent lease system.

HAWAIIAN AFFAIRS.

CHICAGO, Sept. 2—L. S. Thurston, exminister of the interior in the cabinet of King Kalakaua, is stopping in the city. He says that \$20,000,000 of American capital, invested in the sugar business of Hawaii on the strength of the existing treaty with the United States, has been without a moment's warning rendered almost worthless by the McKinley bill. "Our hope now is that the president will next year exercise the power given him to place a duty again upon beet sugar from such countries as have not recuprocated with the United States. We are now negotiating, however, for absolute free trade with the United States.

San Francisco, Sept. 2—A Honelulu letter says that the new Hawaiian queen becomes daily more unpepular with the natives and Americans, as she takes no pains to conceal her favoritism for the English and ignores the suffering of the natives at the hands of the big sugar companies. The recently fermed labor party demands a new constitution, a republican form of goverament, and hints at negotiations to annex the islands to the United States. The recent census shows that over half of the white population has left the islands in the last six years, having been crowded out by Asiatic coolies imported by the sugar planters, and that the natives are rapidly dying off.

BERLIN, Sept. 2.—In many parts of Germany today the twentieth anniversary of the battle of Sedan, fought Sept. 2, 1870, is being celebrated in an appropriate manner, with prayer and thanksgiving and with festivity and general rejoicing.

The Post says: "We have no desirs for trouble, but if others provoke war, Geremany will be resolute and will fight as a courageously as twenty years ago, confident in God's aid."

The L. cuz Zeitung says: "If war is inevitable, it will be a struggle of which the world has never seen the like. If we are beaten, it will be finis Germania."

Pastor Strecker, in a letter to Das Volks, says: "The men of Germany may soon be summoned to defend the privileges won on the bloody fields of 1870, and to flight for unity, honor and liberty. At the critical moment all Germans alike will do their duty."

VIENNA, Sept. 2—The Deutsche Zeltung says: "Since the visit of the French fleet to Cronstadt the international situation has been greatly modified. The German emperor no longer seeks to visit the czar, and uneasiness pervades Europe. The meeting of Emperor William and Emperor Francis Joseph thus acquires a greater import than it would otherwise have had."

PARIS, Sept. 2—The papers of this city generally make no reference to Sedan. M. Oliver, in a published interview, complains bitterly of the renewal of the historic charges that his government provoked and began the war of 1870 with a light heart. He declares that William and Bismarck purposely outraged France and imposed the war. He adds: "Arising from her delear, France is greater than ever."

The Work of Adjusting the Floating Indebtedness of the Union Pacific-A Proposition From the Treasury Department Concerning Pacific Railway Licos-The Santa Fe and Frisco Agree ment-Notes.

Chicago, Sept. 2.—The application of the Indiana, Illinois and Iswa road for admission to membership in the Western Freight association is likely to be rejected. The members all voted on the proposition, and it is undarated that served roads voted against it. There is a feeling that the whole nevament is a trick rugineered by the Atchison and the Burlington to preserve the advantage which they have enjoyed heretofore in handling through business in connection with the Indiana Illinois and Iowa. The latter line gats i double proportion of the through rates by drawing both freen its western and sastern connections and is thin enabled to attract business to its line by baying a price for it. To stop this manipulation the members of the Western Freight association have been ordered to ille statements of their divisions with outside lines. Under the agreement a member is not required to make known its divisions with other members, and, to avoid being compelled to reveal the proportion allowed the Indiana, Illinois and Iowa, it is charged that the Burlington and the Atchison induced it to apply for membership in the association. The master will, no deabt, be finally disposed of at the meeting of the Western Passenger association feat week. The Western Passenger association see stabilish parity of rates were discussed at considerable length and finally laid on the table. THE UNION PACIFIC.

New Yorks, Sept. 1.—Rumors were current today that those had been a breach between the directors of the Union Pacific and the creditors' committee and that the schume to extend the floating debt would fall through.
